ASSOCIATED STUDENTS  
OF SAN JOSÉ STATE UNIVERSITY

# Annual Report

*Our mission is to represent the students  
of San José State University and continually  
improve the quality of their educational  
opportunities and experiences.*

## GREETINGS FROM THE ASSOCIATED STUDENTS PRESIDENT

Hello Spartans,

I'm Tomasz Kolodziejak, your Associated Students (A.S.) President, and I'd like to share the kind of projects that your Associated Students government have been working on throughout this past school year that make a student's experience at SJSU memorable.

Budget cuts are becoming more difficult to avoid. However, the Associated Students have created ways to decrease the burden imposed upon students by these cuts. We believe that those who excel in their studies and continually strive to improve their community should be rewarded for their dedication to school and society. In this spirit, A.S. has created seven new need and merit based scholarships, available to all qualified students, which includes AB540 and international students. The scholarships, totaling \$81,500, were awarded June 2011.

Environmental sustainability continues to be a priority to Associated Students. Transportation Solutions provides the Eco-pass, on-campus bike lockers, and the ride-sharing program, while the Trashion Fashion show provides students the opportunity to showcase their creativity while contributing to environmentally-friendly practices.

The Associated Students believe that in order to improve the services and programs that enhance your time at SJSU, student feedback is extremely valuable. That is why we conducted a survey in the fall of 2010 of over 4,000 students on campus. We were very pleased with the results; they showed us that we are helping students with valuable services such as the print shop, VTA pass, and child development center, but it also showed us areas in which we can improve, such as creating more programs which graduate students can be involved in, and varying the times of our events.

Above all, we heard you would like to be more aware of what A.S. is doing. As a result of this, we've been constantly striving to increase our presence on Facebook and Twitter by providing details of campus events as well as enlightening students on daily A.S. activities. Additionally, you can subscribe to monthly A.S. email newsletters, or check our website, which is constantly updated with new events and programs taking place within A.S. Through these mediums, as well as ads in the Spartan Daily and posters around campus, we will continue to improve how you become informed about our programs and services.

Finally, on behalf of the board of Directors and myself, I would like to invite each student to come and visit the A.S. house and experience how our policies are derived, our programs are planned, and what services are provided that you may not know about. Each director is available during the week to speak with other students about how A.S. can help them personally or in their organization.

With Spartan Pride,

Tomasz Kolodziejak  
A.S. President

## THE FUNDAMENTALS OF ASSOCIATED STUDENTS

It is our great privilege and honor to serve as your student government leaders and advocates. Meeting the needs of students; delivering quality services; responding to needs of the campus community; partnering in campus collaborations; being fiscally responsible; improving internal business operations; creating job opportunities; offering expanded scholarship programs; creating memories; building relationships; offering mentoring and volunteer programs; providing childcare for SJSU students; advancing student leadership; communicating through social media; supporting Spartan spirit at athletic events as well as in partnership with Alumni—only name a few of our accomplishments this past year.

With the ever changing landscape of campus, A.S. has adapted to multiple moves of our departments. Our Campus Recreation department, which houses Intramurals, Fitness Programming and Outdoor Adventures, moved into the Sport Club located in the Event Center. Our César Chávez Community Action Center took up temporary residence in Hoover Hall and will relocate again to the A.S. House in Fall 2011. Our Print Shop moved out of the “old cafeteria” near the Student Union into it’s now extended temporary location in Hoover Hall, convenient to all on campus housing.

Associated Students brought you Fire on the Fountain during Homecoming Week; Legacy Week with Michael Moore; the Spartan Squad; and enhanced Programming Board; Trashion Fashion Show; a March on Sacramento against budget cuts; a survey of over 4,000 students who shared their thoughts on what they are interested in on campus. Our “pilot program” with Altamont Commuter Express (ACE) was renewed to continue to provide 50% discounts on trips to Stockton on the ACE Train. Operationally, we continue to strive to create positive experiences on campus with new programs and services.

We appreciate your interest and desire to learn more about Associated Students and to become engaged, connected and supportive of our efforts to serve all students of SJSU.

With high regard and appreciation,

A handwritten signature in black ink, reading "Cheryl Vargas".

Cheryl Vargas  
*A.S. Executive Director*

### ASSOCIATED STUDENTS

*Associated Students, SJSU is a 501(c)3 corporation created to provide student leadership and the development of services that meet the changing needs of the students at San José State University. Maintaining a voice for the students through student government, Associated Students is responsible for the creation and daily operation of nine distinct departments each contributing its own unique service to our campus community.*

## 2010 2011 ASSOCIATED STUDENTS BOARD OF DIRECTORS

Jessica Dunham  
*Vice President  
and Chairperson of  
the Board of Directors*

Ramon Vizcarra  
*Controller*

The Associated Students Government is divided into two branches : **Executive** and **Legislative**. The Executive branch consists of the President, Vice President, and the Controller and is responsible for the day to day operations of Associated Students by following through on the processing of fiscal matters, policies and student representation. The highest decision making body within the student government is the Legislative branch called the A.S. Board of Directors. The Board of Directors consists of 13 student leaders who represent the student voice and make decisions on A.S. policies and expenditure of funds.

Being active in student government provides a voice for the students of San José State University. Student government also gives students a chance to experience leadership roles that are completely different from anything they have experienced before—to oversee a non-profit corporation, a responsibility not typical for a student. Students who serve on the board or join a committee are able to truly say they make a difference on the SJSU campus.

A.S. offers the students of SJSU a great opportunity to vote and give input on issues of A.S., the university and the CSU System as a student at large through seven officially recognized committees: Finance Committee, Programming Board, Programs Review Board, Audit Committee University Affairs Committee, Lobby Corps, and the Rules Committee.

The Programming Board is tasked to plan, organize, and execute events throughout the year for the students of SJSU. Several of last year's events drew large crowds like Fire on the Fountain, the Fall Finale, and the Battle of the Bands. Also, the Finance Committee not only oversees student association fee spending, but successfully allocats funds to over 100 student organizations each year, which goes toward professional development for conferences, research projects and philanthropic events.

## A.S. GOVERNMENT BOARD ACCOMPLISHMENTS

### ENRICHMENT

The Associated Students government continually works to improve not just the educational opportunities of our students, but also the experiences they have outside the classroom. Through a mix of annual and new events, we aim to provide the students of SJSU with an unforgettable college experience.

This year marked the return of several events such as SJSU Homecoming's Fire on the Fountain and Homecoming Court as well as the Trashion Fashion Show, Snow Day, outdoor movies and the Cultural Showcase. The year also saw the birth of several new activities such as Feed Your Brain Finals Week event held each semester and several well attended barbecues to promote the A.S. elections.

### ADVOCACY

One of the major roles of the A.S. Government is advocating for SJSU students, and this year we were very successful in ensuring the students' voices were heard. This past fall, the Lobby Corps Committee held a Rock the Vote concert featuring Bobby Brackens with 1,200 in attendance and was able to register 700 voters. Also with Lobby Corps, seven student-at-larges were recruited, which is the highest recruitment to date for A.S. In the spring, the group organized the March to Sacramento where SJSU students traveled to the capital to advocate in support of the California Dream Act and against the state budget cuts.

The A.S. Board was able to ensure several successes in effecting university policies this year. Members were able to stop the University Change of Major proposal and amend the Mandatory Housing Policy to be more student friendly. Additionally, Associated Students board members helped contribute to the Resolution Against Early Start and addressed Time, Place and Manner. A.S. also advocated for a reexamination of the Business Fee, which was out of compliance.

This year, the A.S. Ad Hoc Committee was created to re-examine the governing documents. Through the course of the year, the committee met for over seventy hours and was able to create and recommend a new format for governing documents.

## SERVICE

Associated Students is continually looking for ways to improve the SJSU campus. Often times this is done through service initiatives around campus and the community. Over the course of the year, the A.S. Government helped to raise money for the San Bruno Relief Fund, participated in Sustainability Week, and held the cultural showcase.

A.S. Board members worked diligently to improve Transfer Student Orientations as well as the Sophomore Advising Expo through encouraging them to get involved in a director position or to be a part of a committee. Board members worked with Housing, UPD and orientation groups to help answer questions about A.S. and other resources that are available on campus.

## LEADERSHIP

Student Government board members are true leaders within the SJSU community. This year, we had directors serve on the University Academic Senate as well as represent the university at CSSA (California State Student Association) meetings. While at CSSA, future A.S. leaders via student-at-large attendees were involved in the Voter Registration clinic and CHESS (California Higher Education Student Summit). The board also took a leadership role in conducting a student survey of 4,000 students to understand how we could best be of service.

A.S. worked to provide funding to further empower the student organizations of San José State University, which help to foster new leaders through every department on campus. The fund provides support for student activities, the promotion of campus life, cultural understanding, and equality.

As one of many first steps, A.S. passed the first Global Leadership Resolution with the help of committee members, which supports efforts by San José State University to prepare students to be global citizens.

## ASSOCIATED STUDENTS DEPARTMENTS

### CAMPUS RECREATION

In 2010–2011, the A.S. Campus Recreation department moved into the Sport Club, which allowed us to deepen our partnership with the Student Union and ultimately, provide a seamless experience for students seeking recreation opportunities. Operating our three key programs (Outdoor Adventures, Intramurals, and Fitness) directly out of the Sport Club, is not only convenient for students, but gives all new meaning to the SJSU Spartan Recreation team.

In 2010–2011, Outdoor Adventures was involved in many key pilot programs as well as team building collaborations. Outdoor Adventures helped implement the new Sparta Camp to the FROSH of San José State University in providing experiential activities to help students transition into the university. A kayaking trip and an eco service opportunity kicked off the school year. Through the year, many other activities, such as camping on Catalina Island, hiking in Santa Cruz, and backpacking in Big Sur proved to be meaningful and exciting opportunities to many students. This year, there were a total of 18 trips varying in attendance from four students to thirty, bringing the total to 174 students served in the academic year.

Campus Recreation's Intramurals Sports program allows SJSU students the opportunity to get involved and stay active through healthy competition. The program offers over 20 individual and team sports every year, ranging from flag football to tennis. In the fall semester, Intramural Sports had a participation total of 1,078. This number increased in the spring semester to 1,442 creating a grand total of 2,592 participants. Males had the highest number of participants with coed intramural teams coming in second. The most popular intramural sports for the 2010–2011 year included indoor soccer, volleyball, and basketball.

Fitness classes are becoming increasingly more popular among the SJSU community, and to meet that demand, new classes and class times are forming every semester. Classes are offered year round and attract a large variety of students. The most popular include kickboxing, zumba, and yoga. Campus Recreation also offers aqua fitness classes for those looking to mix up their workout from their daily routine.

### COMPUTER SERVICES CENTER

The A.S. Computer Services Center (CSC) is conveniently located in the hub of campus on the top floor of the Student Union and serves thousands of students at San José State each year. Because they offer resources that meet critical needs of students, the CSC offered extended hours in 2010–2011, and was open seven days a week, with late night hours through 10pm five days a week.

Through a survey administered by the CSC, we were able to see just how important this department is to the students of San José State University. Of the students who participated, 97% stated that they were satisfied with the computers at the center and 92% gave a positive response to the customer service experiences they had.

The value of the CSC was also proven by the dramatic fiscal increases the department had this year. It saw a 42% increase in repair sales from the previous school year, and a 30% rise in the number of computer repairs being conducted. When compared to large chain repair stores, it is estimated that the CSC was able to save SJSU students a total of \$81,000 over the year. The department's self service printing also saw incredible growth with a 90% jump in sales and a remarkable 270% increase in color printing.

### GENERAL SERVICES CENTER

Also located at the hub of campus in the Student Union, the General Services Center provides the students, faculty, and staff of SJSU access to everything from medical insurance to legal advice. Last year, the center saw a 30% increase in service for student organizations' trust accounts, bringing the total to 250 student organization accounts. The front counter distributed over 10,000 student and 300 faculty/staff VTA stickers on behalf of the A.S. Transportation Solutions

Ecopass Program. The center also had over 450 students use the Book Loan Program, which saved students thousands of dollars on general education text books. Additionally, 650 students enrolled in the medical insurance program and 120 students utilized legal counseling. Other valuable services the General Services Center offers are a notary public, International Student ID's, issuing cashier's checks, and being a payment center for PG&E, just to name a few.

## CHILD DEVELOPMENT CENTER

Conveniently located just steps off campus on 8th Street, the Child Development Center (CDC) proudly serves the students, faculty, and staff of San José State University, as well as students from other local campuses. Inspired by the Reggio Emilia approach to early childhood education, CDC teachers use the curiosity of the children to encourage artistic expression, critical thinking, and investigative learning. We respect individuality and value every child as a smart, competent learner, rich with ideas and eager to learn. Our hallways are full of photos and narratives that document the ongoing learning of our over 110 students.

The center also provides great opportunities for students to meet course requirements for student projects, service learning, and child observations. We work regularly

with numerous SJSU departments: Nursing, Communications, Speech Therapy, Occupational Therapy, Audiology, Child and Adolescent Development, Journalism, Music, Theater, Art, Psychology, Nutrition, Accounting, and Social Work. Students from the A.S. César Chávez Community Action Center, ISACA, and various sororities and fraternities volunteer countless hours each year at our center. The CDC encourages and welcomes collaborations with all campus departments and organizations.

Classroom observations or service learning projects were also completed at our site by students from Santa Clara University, Foothill College, San José City College, De Anza College, Mission College, Loyola Marymount University, Lincoln High School, and Presentation High School.

## PRINT SHOP

Over the last few years, changing locations became a way of life for the A.S. Print Shop. Last year was the first full year the Print Shop was housed in Hoover Hall, and with the move the department overcame several challenges. Such obstacles included having to eliminate student work stations and having limited flexibility with floor space. With this challenge, the Print Shop saw an opportunity to create a faster flow for students and the ability to get them in and out quicker. With the increase of speed in accessibility of resources, providing a fast service will now be something the Print Shop is consistently known for and can come to expect.

An expected trend facing the Print Shop, with the growth of technology, has been the decrease in course reader sales. With an increase in online reading materials, the sales of this once popular teaching tool have declined with each passing year. However, professors are still offering this supplemental reading, and the Print Shop is proud to sustain this service for students.

From July 2010 to June 2011, the Print Shop had over 100,000 transactions and printed/copied over four million pages! Despite the numerous obstacles the Print Shop has faced, we continue to provide exceptional service and are committed to meeting the needs and demands of the students, faculty and staff of SJSU.

## TRANSPORTATION SOLUTIONS

The Associated Students Transportation Solutions (T.S.) department has had another great year of continued growth and successful promotion of its services. During this past year, the department distributed over 54,300 VTA Eco Passes to qualified students and 890 passes to the faculty and staff of SJSU. Last year, T.S. worked with Santa Cruz Metro Transit District to implement the sale of the new Highway 17 Express 31-Day pass, and consequently provided a much needed public transit option by selling 463 passes. Additionally, T.S. sold 47 monthly and 358 20-Ride ACE Train passes. Last year, T.S. also implemented the bicycle enclosures retrofit project, which increased capacity in the cages by 50 percent.

This past year, T.S. also launched many new promotional campaigns. One campaign focused on the 50% discount that is offered exclusively to SJSU students and employees for

monthly and 20-ride ACE Train passes, while another focused on discounts available to students and staff on the Highway 17 Express bus service. Through all of its efforts, T.S. recorded 53,000 visits to its website.

Additionally, this year T.S. was tasked to work with the Bursar's Office to implement the new Tower Card ID project and re-card the entire student body. As part of this project, T.S. accomplished distributing information on alternative transportation to 63,550 SJSU students, faculty, and staff. Providing alternative transportation to members of the San José State community not only protects the environment, but it also allows Associated Students to meet the growing needs of a large population of students that travel to campus each day.

## CÉSAR CHÁVEZ COMMUNITY ACTION CENTER — — — — —

Established by Associated Students in July 2005, the César E. Chávez Community Action Center (CCCAC) connects SJSU students with community service opportunities, while deepening students' educational experiences and promoting a lifelong commitment to civic activism and social justice. The CCCAC offers numerous programs and services and partners with a number of local organizations. Improving the quality of life in San José and strengthening alliances between SJSU and the community, the CCCAC helps produce the next generation of philanthropists and civic minded college graduates.

### THE LEGACY WALL

This was the first year we created a Legacy Wall which included posters made by individuals and different student organizations on campus. The themes of the wall this year were racism, sexism, poverty, and non-violence.

### "EXPRESS YOURSELF"

Many CCCAC staff showed an interest in spray painting, so we thought it would be fun to spray paint building BB before they knocked it down. After getting permission, we used stencils and free-handed quotes related to social justice issues around the inside of the building. It was a nice activity that all our staff was able to participate in together.

### PUT YOUR MONEY WHERE YOUR HEART IS

This campaign brought awareness to people walking through campus about how much we spend on material items. We compared these items to the cost of meals for a person. Our hope is that people will realize that poverty does exist and we need to be more mindful about how to use our money to make a difference.

### POVERTY UNDER THE STARS

In support of this event, CCCAC created a tent, which focused on the poverty rate in San José based on the children's Free and Reduced Lunches in the Franklin-McKinley School District.

### CRUZ REYNOSO

From the screening of the documentary to questions and answers, Cruz Reynoso brought awareness to SJSU from his experiences of being the first Latino, California Supreme Court Justice, serving on the U.S. Commission for Civil Rights, and being a life-long scholar-activist.

### SOCIAL JUSTICE STENCILING WORKSHOP

This workshop was open to all students at SJSU to use their creativity to stencil pictures, words, and quotes related to social justice issues onto posters. The participants stenciled about issues including peace, free speech, and racism.

### TUNNEL OF OPPRESSION

The CCCAC presented the Hope and Action Room at the Tunnel of Oppression. The room included reflection tables, resources, and a Hope Wall where students could write something that makes them feel hopeful.

### about Legacy Tours

*"You guys did a fantastic job, it was very informational and inspiring. I appreciated how you spoke to the students as if you were talking to college kids, you didn't talk down to them, they really like the tour. One of my students said it was the best part of our field trip and he can't wait to go to college."*

—ZELA GARCIA, STIPE SCHOOL SAN JOSÉ

*"It was an amazing experience, not only for my students but also for our parents volunteers, to get in touch with SJSU by means of your charismatic tour guides. One of our school's goals is to instill in our students high expectations for their lives and see themselves as college bound students and this tour was a perfect fit. It was an asset to have a bilingual tour guide who made a connection with my bilingual students."*

—YANETH PISCO, STIPE SCHOOL SAN JOSÉ

### about Fuerza Escolar (FÉ) Mentoring

*"The program is making a big impact on our campus. Just the other day we had two second grade students coming into the office asking for a mentor. They said they would pay in dragon dollars if they got a mentor next week."*

—FRONT OFFICE STAFF AT WASHINGTON ELEMENTARY

### about I THINK Programs

The I THINK program focuses on raising awareness of social justice at SJSU as well as promoting civic engagement. It does so by providing educational enrichment workshops.

*"This workshop was really helpful. Thank you for starting this conversation."*

*"I have never been in a room with this many other activists talking about 'US'. Thank you."*

## HONORED RECIPIENTS

### A.S. SCHOLARSHIP

Early this year Associated Students expanded and launched new scholarships that gives students who excel academically and demonstrate leadership on campus or serve in their communities a chance to help pay for tuition. The Associated Students Scholarship program is funded from interest accrued through A.S. reserves, which we hope will sustain the program for years to come. Forty-eight Need and merit based scholarships totaling \$81,500 were handed out at the end of spring in the range of \$1,000 to \$2,000 each.

### A.S. 55

Fifty-five recipients were recognized as *un-sung heroes* that have gone above and beyond with their service to the campus and their community. Accomplishments included such things as volunteering as youth mentors, serving as a leader on campus, becoming a founder of a club or Greek organization, serving the disadvantaged, working with the homeless, taking on philanthropic activities, providing peer mentoring, bridging the gap for first generation students, tutoring high school youth, bringing San José State University into the greater community and taking a stand for student advocacy and social justice. The 2011 Awards Ceremony celebrated these individuals and brought pride to our students and the organizations they represent.

## HOMECOMING

SJSU's school pride extends beyond the campus and onto the field with our annual Homecoming events. During Homecoming week, A.S. helped organize events to bring the campus community together and celebrate SJSU football team's Homecoming game.

Our Events department hosted the traditional A.S. event, *Fire on the Fountain*, which helps create college memories and an atmosphere of school spirit throughout campus the week of Homecoming. Along with the Events department, the A.S. Programming Board also organized the selection of the

Homecoming Court, where men and women submitted their resumes and participated in an interview process where they had the opportunity to express what Homecoming meant to them. Six students were selected and one King and one Queen were crowned to celebrate with the campus during the Fire on the Fountain event and the annual Homecoming game.
